

## FOR IMMEDIATE RELEASE

March 15, 2006

---

RigMaster Power Corp. is pleased to announce the following appointments.

Gary Lisson has accepted the position of General Manager of RigMaster Power Corp. Acting as General Sales Manager for the past year, Gary has become an integral part of the RigMaster organization in his role as providing clear direction and leadership. Moving forward, Gary will continue to direct RigMaster's sales and marketing efforts, and will oversee the various aspects of operations and product development

Ken Tchir assumes the position of Director of Operations for RigMaster Power Corp. In his new role Ken will be responsible for all levels of operations at the Toronto, ON facility as well as overseeing production at the new Olathe, KS facility Ken will continue to direct RigMaster's quality control programs as well as product design and support efforts.

Amy Egerter has taken over the newly created position of Marketing and Communications Manager. In her new role, Amy will be responsible for the advertising and promotion of the RigMaster Power brand of products throughout North America. In addition she will serve as the primary media relations contact.

RigMaster Power Corp. has been the leading manufacturer of stand-alone truck mounted auxiliary power units since 1995. Now operating production facilities in Canada and the United States; RigMaster continues to be a leader in the APU industry.
