## NEW Dual Blower Control Module Kits For ALL APU's With Dual Blowers

The update is intended to improve the operations on ALL units by replacing the Dual Blower Control Module that was provided or installed on our APU's.

|          |  |
|----------|--|
| KL7-023  | Dual Blower Control Module (Used with BOTH Kits) |
| KL7-023K | Dual Blower Control Module Kit without Heat      |
| KL7-026K | Dual Blower Control Module Kit with Heat         |

### KL7-023K – Dual Blower Control Module Kit WITHOUT HEAT

| Part No.   | Description                                  | Quantity |
|------------|--|----------|
| KL7-023    | Dual Blower Control Module                   | 1        |
| KL7-023-01 | Dual Blower Control Module Harness (NO HEAT) | 1        |

### KL7-026K – Dual Blower Control Module Kit WITH HEAT

| Part No.   | Description                               | Quantity |
|------------|---|----------|
| KL7-023    | Dual Blower Control Module                | 1        |
| KL7-026-01 | Dual Blower Control Module Harness (HEAT) | 1        |

**NOTE: KL7-023 IS THE MODULE ITSELF. AFTER THIS UPDATE, THIS IS THE COMPONENT THAT WILL BE REPLACED IF BLOWER FUNCTIONS WERE DIAGNOSED/TROUBLESHOT TO BEING THE ROOT CAUSE OF FAILURE.**

KL7-023

#### Changes made to Dual Blower Control Module.

- No fixed wiring harness
- Fuse built in to Module

**DUAL BLOWER CONTROL MODULE HARNESS WITHOUT HEAT  
(KL7-023-01)**

This wiring harness will replace the pre-existing harness that was attached to the previous version of the **Dual Blower Control Module**. Once this harness has been installed it will be fixed to the HVAC Box and will **ONLY** need to be replaced if there is any type of damage to the harness itself.

KL7-023-01

**DUAL BLOWER CONTROL MODULE HARNESS WITH HEAT  
(KL7-026-01)**

This wiring harness will replace the pre-existing harness that was attached to the previous version of the **Dual Blower Control Module**. Once this harness has been installed it will be fixed to the HVAC Box and will **ONLY** need to be replaced if there is any type of damage to the harness itself.
